ACCEPTABLE USE POLICY, RESPONSIBILITY CONTRACT FOR USE OF  
COMPUTERS, THE INTERNET, ELECTRONIC MAIL, AND PHOTO RELEASE

## STUDENT/PARENT AGREEMENT

---

Thermalito Union School District's computer network provides access to the Internet and e-mail. In order to utilize these services, all students must obtain permission as verified by the signatures on the form below. Should a parent prefer that a student not have access, use of the computers is still possible for the more traditional purposes such as word processing. Students will be responsible for proper care of all technology. Misuse or damaging behavior may result in loss of use and possible replacement costs.

### • What is possible?

Families should be aware that some material accessible via the Internet may contain items that are illegal, defamatory, inaccurate, or potentially offensive. While the purposes of the school are to use Internet resources constructive educational goals, students may find ways to access other materials. We believe that the benefits to students from access to the Internet in the form of information resources and opportunities for collaboration exceed the disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. Therefore, we support and respect each family's right to decide whether or not to approve their student's access. Our district utilizes filtering software in an attempt to restrict access to objectionable websites.

### • What is expected?

Students are responsible for appropriate behavior on the school's computer network. It is expected that users will comply with district standards and the specific rules set forth below. The use of the network is a privilege, not a right, and may be revoked if abused. The site administrator will deem what is inappropriate use, take appropriate action and determine consequences. The students are advised never to access, keep, or send anything that they would not want their parents or teachers to see.

### • Network etiquette

Do not use or engage in:

- a) Criminal speech in the course of committing a crime-threats to the president, instructions on hacking, child pornography, drug dealing, gang activity, bomb making, etc.
- b) Speech that is inappropriate in an educational setting or violates district rules.
  1. Inappropriate language-obscene, profane, lewd, vulgar, rude, disrespectful, threatening or defamatory in nature.
  2. Dangerous information-information that if acted upon could cause damage or present a danger.
- c) Violations of privacy-revealing personal information about others.
- d) Abuse of resources-chain letter, "spamming". Spamming is sending an annoying or unnecessary message to a large number of people.
- e) Copyright infringement or plagiarism.
- f) Violations of personal safety-revealing personal contact information about self.
- g) Illegal copying-downloading or installing any commercial software, shareware or freeware onto network drives or disks, unless you have written permission from a "site facilitator".
- h) Commercial services or political lobbying.

NOTE: Misuses of the Internet that are in violation of the disciplinary code will be handled in accordance with the code and appropriate legal authorities will be contacted if there is any suspicion of illegal activity.

## **Instruction**

E 6163.4 (c)

### **• Vandalism and Harassment**

Vandalism is defined as any malicious attempt to harm, modify, and/or destroy data of another user, Internet, or other networks. This includes, but is not limited to, contamination, deletion, uploading or creating of computer viruses or reconfiguration of data or degradation of performance in any way.

Harassment is defined as the persistent annoyance of another user, or the interface of another user's work. This include, but is not limited to, sending of unwanted e-mail.

Vandalism and harassment will result in cancellation of privileges and/or criminal prosecution.

### **• Cyberbullying**

Cyberbullying includes the transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

### **• Disclaimer**

Thermalito Union School District will not be responsible for any damages you may incur as a result of using the computers within the school. This includes the loss of data, an interruption of services, or reliance on the accuracy of information accessed through the system. Use of any information obtained via the Internet is at the user's own risk. Thermalito Union School District accepts no financial obligations arising from unauthorized use of the system for the purchase of products or services. Users will indemnify the district against any damage that is caused by the user's inappropriate use of the system.

### **• Privacy**

Electronic mail (e-mail) is not guaranteed to be private. All users should be aware that routine monitoring and maintenance of the system may lead to discovery that the user has violated the law or a district rule. Additionally, an individualized search may be conducted if there is reasonable suspicion that a user has violated the law or a rule.

### **• Security**

If you feel you can identify a security problem within the network, you must notify the site administrator. Do not demonstrate the problem to others.

Attempts to log on as a system administrator may result in cancellation of user privileges.

Any user identified a security risk or having a history of problems with other computer systems may be denied access to Thermalito Union School District network services.

### **• Student Photos**

From time to time photographs or video footage of students may be used by the district to promote the school district's aims. This includes possible publication in district materials such as newsletters, websites or classroom video broadcasts. These photos, the negatives they are made from, and video footage shall remain the property of TUSD, and the district shall have the right to duplicate, reproduce and make other uses of such photos, free and clear of any claim whatsoever. In the event student photos are used, the district will refrain from naming the child or divulging other personal identifying information.

### **• G-Suite for Education**

The Thermalito Union School District has begun using Google's G-Suite for Education, a managed on-line environment designed specifically for educational institutions. G-Suite for Education provides students and educators the best real-time collaboration and productivity tools, allowing students to create and store their digital work in one easily

accessible location throughout their academic career, extending learning beyond the school day and the traditional classroom. G-Suite for Education is a “self-contained” system, created for each unique school district that offers safer, reliable, monitored student and teacher interaction where the District has much greater control over data and security when compared to regular or personal Internet resources.

The Thermalito Union School District recognizes that technology and Internet resources offer a wide variety of educational opportunities and tools that can enhance learning. Appropriate behavior and responsibility are taught and expected of students when using these resources and tools while building skills that are essential to 21st century citizenship, transforming learning, increasing student engagement, and greater subject mastery for our students.

Google Apps will provide the ability for students and teachers to store files and collaborate on documents, spreadsheets, and presentations in real time from school or home within a “closed campus” online environment. The use of these tools is optional, and intended to provide an approved and supportable alternative to “consumer” Google accounts.

In order to comply with the Child Online Privacy Protection Act (COPPA) parental permission is required for students under the age of 13 to utilize TUSDs access to G-Suite for Education. Thermalito Parent Permission form and User Agreement will be used to obtain parental permission and will be collected annually.

**STUDENT USE OF TECHNOLOGY**

The principal or designee shall oversee the maintenance of each school's technological resources and may establish guidelines and limits on their use. All instructional staff shall receive a copy of this administrative regulation, the accompanying Board policy, and the district's Acceptable Use Agreement describing expectations for appropriate use of the system and shall also be provided with information about the role of staff in supervising student use of technological resources. All students using these resources shall receive instruction in their proper and appropriate use.

- (cf. 0440 - District Technology Plan)
- (cf. 4040 - Employee Use of Technology)
- (cf. 4131- Staff Development)
- (cf. 4231 - Staff Development)
- (cf. 4331 - Staff Development)

Teachers, administrators, and/or library media specialists shall prescreen technological resources and online sites that will be used for instructional purposes to ensure that they are appropriate for the intended purpose and the age of the students.

- (cf. 6163.1 - Library Media Centers)

**Online/Internet Services: User Obligations and Responsibilities**

Students are authorized to use district equipment to access the Internet or other online services in accordance with Board policy, the user obligations and responsibilities specified below, and the district's Acceptable Use Agreement.

1. The student in whose name an online services account is issued is responsible for its proper use at all times. Students shall keep personal account numbers and passwords private and shall only use the account to which they have been assigned.
2. Students shall use the district's system safely, responsibly, and primarily for educational purposes.
3. Students shall not access, post, submit, publish, or display harmful or inappropriate matter that is threatening, obscene, disruptive, or sexually explicit, or that could be construed as harassment or disparagement of others based on their race/ethnicity, national origin, sex, gender, sexual orientation, age, disability, religion, or political beliefs.

- (cf. 5131 - Conduct)
- (cf. 5145.3 - Nondiscrimination/Harassment)
- (cf. 5145.7 - Sexual Harassment)
- (cf. 5145.9 - Hate-Motivated Behavior)

Harmful matter includes matter, taken as a whole, which to the average person, applying contemporary statewide standards, appeals to the prurient interest and is matter which depicts or describes, in a patently offensive way, sexual conduct and which lacks serious literary, artistic, political, or scientific value for minors. (Penal Code 313)

4. Unless otherwise instructed by school personnel, students shall not disclose, use, or disseminate personal identification information about themselves or others when using email, chat rooms, or other forms of direct electronic communication. Students also shall be cautioned not to disclose such information by other means to individuals contacted through the Internet without the permission of their parents/guardians.

Personal information includes the student's name, address, telephone number, Social Security number, or other personally identifiable information.

5. Students shall not use the system to encourage the use of drugs, alcohol, or tobacco, nor shall they promote unethical

practices or any activity prohibited by law, Board policy, or administrative regulations.

(cf. 3513.3 - Tobacco-Free Schools)

(cf. 5131.6 - Alcohol and Other Drugs)

6. Students shall not use the system to engage in commercial or other for-profit activities.
7. Students shall not use the system to threaten, intimidate, harass, or ridicule other students or staff.
8. Cyberbullying includes the transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.
9. Copyrighted material shall be posted online only in accordance with applicable copyright laws. Any materials utilized for research projects should be given proper credit as with any other printed source of information.

(cf. 5131.9 - Academic Honesty)

(cf. 6162.6 - Use of Copyrighted Materials)

10. Students shall not intentionally upload, download, or create computer viruses and/or maliciously attempt to harm or destroy district equipment or materials or manipulate the data of any other user, including so-called "hacking."

(cf. 5131.5 - Vandalism, Theft and Graffiti)

11. Students shall not attempt to interfere with other users' ability to send or receive email, nor shall they attempt to read, delete, copy, modify, or use another individual's identity.

12. Students shall report any security problem or misuse of the services to the teacher or principal.

The district reserves the right to monitor use of the district's systems for improper use without advance notice or consent. Students shall be informed that computer files and electronic communications, including email, are not private and may be accessed by the district for the purpose of ensuring proper use.

(cf. 5145.12 - Search and Seizure)

Whenever a student is found to have violated Board policy, administrative regulation, or the district's Acceptable Use Agreement, the principal or designee may cancel or limit a student's user privileges or increase supervision of the student's use of the district's technological resources, as appropriate. Inappropriate use also may result in disciplinary action and/or legal action in accordance with law and Board policy.
